Professional Summary

Motivated Computer Science graduate with a strong foundation in Python, Java, SQL, and frontend web development. Experienced in developing interactive and responsive web interfaces using HTML, CSS, and JavaScript. Passionate about building user-friendly applications, solving real-world problems, and continuously improving technical skills.

Projects

Origami.we – Interactive Origami Learning Website
Personal Project

- Developed a multi-page origami learning website using HTML5, CSS3, and JavaScript to deliver an interactive and user-friendly learning experience.
- Designed a visually engaging interface with a yellow-and-violet color theme, intuitive navigation, and tutorial cards.
- Created dedicated tutorial pages for origami models, including birds, hearts, elephants, swans, and goldfish.
- Implemented client-side interactions and an interactive feedback experience with visual effects.
- Designed a login interface and structured the frontend for potential future backend and authentication integration.
- Managed project source code using Git and GitHub.

Technical Skills

Languages	:	Python, Java, JavaScript, HTML5, CSS3
